My dear Shri Sharma,

I have received your letter of 9 February and read the enclosures regarding Embrace Foundation with considerable interest. In fact much of what you say echoes my own perceptions in this field and I will be happy to interact with you when I visit New York towards the end of November this year. Meanwhile I enclose some speeches and literature which you and your colleagues may find of some interest.

With good wishes,

Yours sincerely,

Shri Ajata N. Sharma
